# Created in Barcelona.

1953. The first SEAT rolls off our Barcelona production line and a whole country starts moving. More than 60 years later and we're moving people all over the world.

But Barcelona still inspires us. Its creative spirit runs through our veins. Feeds into every car we produce. (In fact, 50% of the energy we use to make our cars comes direct from Mediterranean sunshine). This is a city that never stops. And neither will we. Why? Because you have places to be.

# Easy mobility.

The world is full of possibilities. SEAT makes it easy to take hold of them. Plot your own route. Set your own goals. Keep moving through your ever-changing life. It's what we do.

Because if it doesn't set you free, drive you forward, make things better, what's the point? If it's not easy, it's not mobility.

# Your Ibiza.

**On your marks.  
Get set. Move.**

Why stay the same? The new SEAT Ibiza comes with more technology, more space and more ways to make it your own. Everything is sharper. Smarter. Made to take on the city like never before.

Exterior design

## Life's too short to stand still.

Brighter than the rest. The new SEAT Ibiza is equipped with the latest full LED headlights and rear LED pilots. So you've got the power, and the vision, to go the distance.

Exterior design

## Let's roll.

Agility comes in the form of tailor-made rims, now available in 18" across the FR trim. Alloy brings lightness and strength, in your choice of design. And because they're galvanized, they'll stay fresh. Good to go?

Interior design

## Want change? Experiment.

Things are different now. An updated dashboard with a digital 8" glass display and ambient lighting offers new levels of customisation and technology. So go on, break the mould.

Technology

# Why wait for tomorrow?

It's all right here, right now. Your 8" glass display with Full Link technology and Navi System helps adventures stay on track. The Connectivity Box with wireless charging and GSM amplifier keep you powered up and in range. And with the Keyless System and Heartbeat button, you can get in and get going in a heartbeat.

## Safety

# Go on, we've got you.

Whatever the road brings, your new SEAT Ibiza has you covered. From Adaptive Cruise Control, Front Assist and Tiredness Recognition Systems to Hill Hold Control, Electronic Stability Control and a Tire Pressure Monitor. With front, side and curtain airbags as standard too, you can relax and enjoy the ride.

# Your way.

## Who wants to follow the herd?

It's easy to be yourself with the new SEAT Ibiza. Choose the trim. Choose the colour. Choose the wheels and upholstery. You're in charge. [Feels good, doesn't it?].

**See the world**
